Submit Assignment

Due Friday by 11:59pm   **Points** 50
Submitting   a text entry box, a website url, or a file upload   **File Types**   pdf

For this project, you should create and maintain a digital database of tools and guides you use, write and discover during this course.

Your database should be:

- Accessible to you and others (webserver, google site, wiki, blog. Private systems may be used instead of internet accessible but you will not get full marks for accessibility UNLESS you can demonstrate functionality within an INTERNAL network (for example, corporate intranet).
- Easily transferable
- Usable - should be simple to use

For each tool/guide you should include at a minimum:

- Name
- Description
- Your personal review
- Your personal notes on usage
- Source URL (if applicable)
- Local Source (if applicable)

Expectations

Students are expected to create this database within the first two weeks of the semester and maintain it throughout. The database should contain any tools used, key frameworks/information sources and any scripts written by the student. Extra points are available for particularly well thought out or innovative solutions.
